What's New?

Celebrate Summer with New York & Company's Newest Accessory Collections. Take an imaginary journey to Morocco, and discover our New Casablanca and Marrakech collections. Beaded Handbags, Tribal Jewelry, vivid colors and intricate textures all inspired by the magic of Morocco. Besides offering the hottest trends this season, at our prices it is an irresistible deal. With dresses harmonized to match these must have accessory pieces NYCo is a one stop shop to complete your summer wardrobe. If the heat of Morocco is too much to take, cool down with our New York Style, Ice Cold, Lucite Jewelry Collections; The Coolest Trend This Season.

HOW TO READ THE NEW METROPACK:

NEW on Maps:

- We color blocked the zones and Drive Aisle Tables (DI, Z1....ETC)
- Those colors correspond with the overview photos of the zones on the maps providing visual guidance for better understanding of the Floorset as a whole.
- We named the tables & walls according to the items placed on it

NEW on Zone Pages:

- Drive Aisle Tables and Display Wall are the first to follow the Maps.
- Now, you can find all D.A .tables in one section, creating an D.A. "Zone"
- Zones 1-4 are directly after D.A. & Display Wall pages.
- The Page Headers and the names are color-coded to correspond with the zoning on the Maps.
- Included are "Birds Eye View" diagrams to help aid fixture and product placement.
- The diagrams include various iterations of the same table if your stores have different fixtures than what's captured on the photograph.
- Key to Display Elements shown on diagrams are provided below and on each individual page with tables.
- Frames and (Camera) Icon around the Bird's Eye Diagram indicates the table captured on photograph.
- Each Page has a section designated for "Notes to Remember" containing crucial information regarding that particular table or zone, visual tips, Etc.
- Jewelry presentation quantities are now documented in the description area next to style numbers.
- One Zone is on one page, Table (Front) and Wall (Back) are located on the same sheet.

NEW on Fixture Pages:

- New Fixture documenting template has 8 Columns and 9 Rows each "cell" house one style number a color code and a description.
- The location of the cell, (I.e. C3 R4) corresponding with the location of the item on the photograph.
- This new template provides visual aid for placement as well as all necessary information for the product

All Jewelry Fixture should remain full, if sell down occurs remove from displays to fill fixtures.

Chain Stores:

- We created a completely separate section for Chain Stores. It follows the same concept and format as the Side by Side and 3Door.

NOTES TO REMEMBER

TABLE

- Use medium tray as platform to house jewelry and small tray as platform to display.
- Maintain jewelry presentations on this table.
- Acrylic rods should feel full and diverse.
- Place the following 1135 (398) Long Ethnic Sead Bead so it hangs off the platform
- House a size run each of the Tribal Weave Wedge on table base.
- Hang scarves on display hangers.

WALLS

- For scarf presentation on bullet heads, twist two styles of each scarf shown together and place it around the neck, creating a turban-like appearance.
- When merchandising scarves in cabinet make sure that one end touches the bottom shelves, creating an uneven hanging.
- Repeat this hanging technique on all the scarves and make sure it's always the right end that's longer.
- For store that do not have additional Cabinets replace the Criss Cross Sandal with the following:
7282 (006) Horseshoe Sandal
7296 (006) Bugle Bead T-Strap
